

## Exciting Drug Repositioning Expert position at Intomics

*Do you have experience with analysis and integration of diverse 'omics' data sets with the aim to discover novel uses of existing drugs? Do you have experiences with delineating drug MOAs and would you like to work with innovative solutions, world-leading experts and constantly improve your skills? Then you might be Intomics' new drug repositioning expert.*

Intomics is specialized in deriving core biological insights from analysis and integration of biomedical big data. Through the use of world-leading expertise, value-added data sets, and a unique systems biology platform, we help the pharmaceutical industry discover new biomarkers and drug targets, improve translational research and realize precision medicine ambitions.

We are expanding our bioinformatics specialist team and need an expert with excellent skills in data-driven drug repositioning. You will work closely with pharmaceutical researchers either on preclinical or clinical data mining projects with the aim of finding new uses of drugs under development or on the market.

Our preferred candidate has the following profile:

- Strong, proven track record with data-driven drug repositioning
- Experience working with drug repositioning, either with biologics or small compounds
- A solid understanding of basic molecular biology
- A strong background in bioinformatics, computational biology, or systems biology
- Experience with large-scale data mining and data analysis within the omics field
- Excellent communication and presentation skills
- Strong programming skills (e.g. Perl, Python), statistical analysis (e.g. R) and Linux
- Team spirit and ability to interact professionally with our clients
- Strong reporting and documentation skills

Intomics offers an exciting and challenging job, where you get the opportunity to develop your skills and qualifications, and stay at the forefront of bioinformatics research. You will get to work with interesting projects in close collaboration with our clients and your colleagues. Intomics A/S offers a competitive salary and a friendly working environment. Some travel activities should be expected.

Please send your motivated application, CV and references (pdf format recommended) to [applications@intomics.com](mailto:applications@intomics.com) with "*Application-1444 Drug Repositioning Expert*" in the subject field **no later than January 14<sup>th</sup>, 2018**.

All interested candidates irrespective of age, gender, race or religion are encouraged to apply. Enquiries about the position can be made to Scientific Director, Rasmus Wernersson, tel: +45 88807979.

*Intomics A/S, located in Lyngby, North of Copenhagen, Denmark, is a leading bioinformatics company that specializes in providing tailor-made solutions within data mining, bioinformatics and systems biology for the pharmaceutical industry.*
