
DATA CRUNCHER

at SciCross AB

We are looking for a Data Cruncher with interest in data analytics and visualisation. Preferably you would have/be:

- experience in machine learning technologies
- experience in data analysis using e.g. Matlab, R and/or Python
- a good communicator, creative, open to challenges and a solution finder

There are possibilities for part-time work.

About SciCross

SciCross is mainly active in the field of Life Science, utilising data analysis and predictive analytics to discover new features in data and drive decisions.

If this sounds interesting, please send a short CV and covering letter jobs@scicross.com.
